The HomeEasy HE-206 remote control Bayonet Ceiling Rose allows you to convert a standard ceiling rose into a HomeEasy remote control unit. For use with 1 gang incandescent lights only.

**Installation:**

Do not use the HE-206 Ceiling Rose with low voltage lighting transformers, fluorescent bulbs, or energy saving lighting. Incorrect installation may damage the converter. In case of any doubt consult a competent electrical installer.

1: Isolate the mains supply, then remove the existing ceiling rose.

2: Attach the HE-206 ceiling rose using the screws provided.

3: Wire the mains cable to the HE-206 Ceiling Rose as per the diagram opposite, making sure the Live and neutral wires are correctly connected. If required a breakable tab on the base can be removed.

4: Connect the all switch to the ceiling rose, making sure that the switch is zero voltage.

5: Make sure all the cables are connected correctly and securely fastened.

7: Replace the ceiling rose cover making sure no wires are caught between the switch and the wall. Do not over tighten as this could crack or distort the cover.
Pairing/Deleting With Remote Control:
Up to Six remote control units can be paired with HE-206 Ceiling Rose.
To program a HE-206 Ceiling Rose install the unit as per the instructions (See Installation), now press the “Learn” button located inside the ceiling rose cover.

The LED will start to flash, now press the selected “On” button on the remote control, the LED will stop flashing. The units are now paired together. Place your selected light bulb (max 100W) into the Bayonet Ceiling Rose (BEC14/E27), you can test this by pressing the selected “ON/OFF” button.

Deleting Remote Control:
To delete a remote control that has been paired with HE-206 Ceiling Rose, simply press the “Learn” button. The LED will start to blink; press the “Off” button on the remote control, the LED will blink twice to confirm that the remote control has been removed from the memory of the Ceiling Rose.

Resetting Ceiling Rose:
To delete all the remote control units from the memory of the HE-206 Ceiling Rose, hold the “Learn” button for more than 6 seconds, the LED will start to blink continuously. Press the learn button again, the LED will blink twice to confirm the deletion of all remote controls form the memory of the Ceiling Rose.

Switching On/Off /Dimming:
Remote Control:
(See pairing/deleting with remote control)
On: Press on button
OFF: Press Off button
Dimming: Press “On” and then press “On” again, the Ceiling Rose unit will now start to dim, press “On” to select the required level. To switch “Off”, press off as normal.

Standard Light Switch:
On/Off: Switch on and off as normal.
Dimming: Switch On, Off and On again. The converter will now start to dim, to select the required level switch the light Off and On.

Product Specification:
Switch Converter: HE-206
Power: 230V~50Hz
Max Load: 100W BEC14/E27 (Incandescent Lighting)
Internal Fuse: 2A, 130 degrees Celsius
Range: 30 Metres (Open Distance)
Frequency: 433.92MHz
Indoor Use Only

Warning: Never Exceed the Product Specification

Help Section:
RF Range: The radio signals operating distance is reduced when the signal has to pass through walls. The radio signals achieve a range of 30m inside a building; this can be reduced depending on the type of material.

Range Reduction Guide:
